HOW DOES JUNIOR SCHOOL USE CHAT GPT COMPARED TO SENIOR SCHOOL?

Hypothesis:

Senior school uses ChatGPT more than Junior school because Junior school does more work on paper and senior school does more work on devices.
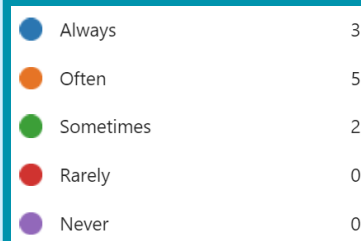

Background information:

ChatGPT is made by OpenAI which generates human like texts for you. Chat GPT uses information from a wide range of sources on the internet to generate responses. is trained from the largest data systems. However, ChatGPT is often used irresponsibly so it should only be used with teacher/parent supervision and should be cited accordingly if used in assignments.
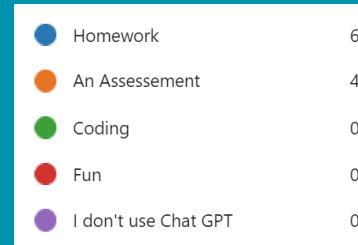

Method:

We made a survey on Microsoft forms asking questions about peoples Chat GPT usage, their year in school and what they use it for. We then sent it out to 10 junior school students and 10 senior school students at our school.

## Survey Results from Senior School

How often do you use Chat GPT?

Always	3
Often	5
Sometimes	2
Rarely	0
Never	0

What do you mainly use Chat GPT for?

|	
Homework	6
An Assessment	4
Coding	0
Fun	0
I don't use Chat GPT	0

Most Senior School students often use Chat GPT homework or assessment tasks. This is what we expected.

Survey Results from Junior School

How often do you use Chat GPT?

Always	0
Often	0
Sometimes	5
Rarely	3
Never	2

What do you mainly use Chat GPT for?

Homework	
An assessment	
Coding	
Fun	
I don't use Chat GPT	

The Junior School students either sometimes, rarely or never used Chat GPT and they used it for coding or fun.

Conclusion

Our hypothesis was supported as we found that Senior school students use Chat GPT far more than frequently than Junior School Students. Senior School also mainly use it for school work where as Junior School use it mainly for fun so we think that it is because the different work that Junior and Senior School do.
